IMPORTANT INFORMATION (EN)

Since 2017 in the business of auto parts sale, Automovito is a Brazil-based company that is conquering the world supplying various type of auto parts for new and classic vehicles from several countries. As we are car enthusiasts, especially for the old Opels, helping to keep a classic in its best shape will always be our biggest motivation :)

In addition to our famous ads at the eBay-kleinanzeigen website, we work also through our website www.automovito.com, our Instagram page www.instagram.com/av_export and our Whatsapp [+5561993540007](https://wa.me/5561993540007). Whatever the place, be sure that we will make our best so you can have a good service and the best experience possible.

Before reading this catalog, we would like to ask your attention for the following information:

- 1) **All prices shown in this catalog include tracked and insured shipping to Germany** with the Brazilian Correios, with an estimated arrival time of approximately 1 month. If you are in a hurry, shipping with DHL is also possible at an additional cost and arrives much faster (about 1 week later). **We also ship to other countries**: just send a message and we'll give you the price.
- 2) **Shipping more than one item in the same package helps reducing the order's final price**. Therefore, if you are interested on two or more items, don't forget to request a price for shipping everything together.
- 3) As our stock is very dynamic, it is possible that some part of the catalog is not immediately available at the time of the order. Therefore, we ask you to **ask about the availability of the part** before making payment.
- 4) As the parts shown in this document are manufactured and intended for the Brazilian market, **none of them have approval marks** (especially lighting parts), unless otherwise mentioned in their description.
- 5) **Only payments made through Paypal are accepted**. In addition to safety (since all transactions made there are insured for 180 days by the platform itself), payments are easy and fast. In other words: it's better for everyone.
- 6) **If you need something that is not in the catalog, just send us a message**: if what you want exists, we will find it and send it to you.
- 7) **We speak portuguese, english and german** – and what else Google Translate helps :)

FORD ESCORT Mk3
